

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS "PAST TO PRESENT: SAME SPIRIT, SAME COMMITMENT"

Bersey's journey began in 1979. Today, with turnkey EPC solutions covering **steam, thermal oil, hot water, and waste heat boiler systems**, Bersey has successfully completed more than 200 projects in Türkiye and neighboring countries.

At Bersey, we prefer developing optimal solutions shaped by real site conditions—solutions designed to operate reliably for many years while maintaining a **balanced price-performance ratio**. For us, perfection is not defined on paper, but by simple, stable, and proven performance in daily operation.

The true value of our work is not reflected in slogans or advertising, but in **long-term relationships built through completed projects**. Our strongest reference is a partner who, after the successful completion of a project, calls us again and says, **"Let us do the next one together."** This continuity is the result of consistency, reliability, and **mutual trust**, developed over many years of cooperation.

Many of the projects we complete today are built on earlier work. Repeated orders from customers such as Sveza Holding, Parfino & Krasnyi Yakor, Kronospan, Kastamonu Entegre, Starwood, Yıldız Entegre, and others confirm our role as a reliable solution partner for energy generation projects.

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS

Starwood PB - Türkiye / 2004
27 MW Waste to Energy - with METSO

21 MW Thermal Oil Heater
2 x 10 TPH Steam Generator @ 14 bar
7 MW Hot Flue Gas @ 280 C for MDF Dryer
220.000 m³/h - ESP filter - 30 mg/m³

Demidovo Plywood - Russia / 2005
8 MW Waste to Energy

6 MW Thermal Oil Heater
Multicyclone Filters

Kastamonu Entegre - Romania / 2006
2 x 11 MW Waste to Energy

2 x 8,25 MW Thermal Oil Heater
Multicyclone Filters

Kastamonu Entegre - Türkiye / 2006
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
10 MW Sanderdust Combustion Burner
Multicyclone Filters

Teverpan MDF - Türkiye / 2006
30 MW Waste to Energy

1 x 5 MW Thermal Oil Heater
1 x 20 TPH Steam Boiler @ 14 bar

UPG Zheshart - Russia / 2007
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
2 MW Hot Water Exchanger @ 90 C
2 MW Superheater Water @ 125 C

Kastamonu Entegre - Türkiye / 2007
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

Kastamonu Entegre - Türkiye / 2007
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

Povolzhky Plywood - Russia / 2008
7 MW Waste to Energy

5 MW Thermal Oil Heater
Multicyclone Filters

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS

Parfino Plywood 1 - Russia / 2008
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

SVEZA Novator - Russia / 2009
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

SBS Orman - Türkiye / 2009
14 MW Waste to Energy

7 MW Thermal Oil Heater
3 MW Steam Generation @14 bar
4 MW Hot Gas for MDF Dryer

TEVER Kapı - Türkiye / 2009
37 MW Waste to Energy

13 MW Thermal Oil Heater
24 MW Hot Gas @350 C for MDF Dryer
Multicyclone Filter

AFK Kemerovo - Russia / 2009
2x21 MW Waste to Energy

2 x 15 MW Thermal Oil Heater
2 x 8 TPH Indirect Steam Generator @ 14 bar
2 x 6 TPH Hot Water System

SVEZA Manturovo 1 - Russia / 2010
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

ARGUS ZFK Plywood - Russia / 2010
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

Veziragac Orman - Türkiye / 2010
15 MW Waste to Energy

12 MW Thermal Oil Heater
Multicyclone Filters

Orma Orman - Türkiye / 2010
25 MW Waste to Energy

13 MW Thermal Oil Heater
12 MW Hot Gas @400 C for PB dryer

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS

Yıldız Entegre Akhisar - Türkiye / 2011
28 MW Waste to Energy

14 MW Thermal Oil Heater
14 MW Hot Gas @350 C for PB Dryer

Yıldız Entegre Mersin- Türkiye / 2011
66 MW Waste to Energy

35 MW Thermal Oil Heater
30 MW Hot Gas @350C for MDF Dryer
2 x14 TPH Indirect Steam Generator @14 bar

Ilm Timber Bratsk - Russia / 2011
2 x 11 MW Waste to Energy

2 x 8,25 MW Thermal Oil Heater
Multicyclone Filters

Kastamonu Entegre - Türkiye / 2011
10 MW Waste to Energy

3 MW Thermal Oil Heater
7 MW Hot Gas @350 C for MDF Dryer
Multicyclone Filters

Starwood MDF - Türkiye / 2012
27 Waste to Energy

13 MW Thermal Oil Heater
14 MW Hot Gas @350 C for MDF Dryer

Yıldız Entegre Aslanbey -Türkiye / 2012
32 MW Waste to Energy

1 x 21 MW Thermal Oil Heater
2 x 12 TPH Indirect Steam Generator @ 14 bar
1 x 11 MW Hot Gas @300 C for MDF Dryer
275.000 m3/h - ESP filter - 30 mg/m3

Borisovdrev MDF - Belarus / 2012
52 MW Waste to Energy

2 x 18 MW Thermal Oil Heater
2 x 8 MW Thermal Oil Heater
2 x 19 TPH Indirect Steam Generator @ 21 bar
1 x 12 MW Hot Water @110 C

Foumanat PB - Iran / 2012
16 MW Waste to Energy

1 x 8 MW Thermal Oil Heater - Wood Waste
1 x 8 MW Hot Gas @ 350C for MDF Dryer
1 x 6 TPH Indirect Steam Generator @ 14 bar

SVEZA Manturovo 2 - Russia / 2013
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS

Yıldız Sunta MDF - Türkiye / 2013
20 MW Waste to Energy

25 TPH Steam Boiler @ 14 bar
Bag Filters

Kronospan KM - Türkiye / 2014
60 MW Waste to Energy

30 MW Thermal Oil Heater
30 MW Hot Gas @350C for MDF Dryer
2 x 14 TPH Indirect Steam Generator @14 bar

Starwood MDF - Türkiye / 2015
50 MW Waste to Energy

1 x 35 MW Thermal Oil Heater
1 x 15 MW Hot Gas @350 C for MDF Dryer
1 x 27 MW Hot Water System for PB Dryer
350.000 m3/h - ESP filter - 30 mg/m3
1 x 5,5 MWe Electricity with ORC Turbine

Starwood MDF - Türkiye / 2015
27 MW Waste to Energy

21 MW Thermal Oil Heater
6 MW Hot Gas @350 C for MDF Dryer
275.000 m3/h - ESP filter - 30 mg/m3

Kastamonu Entegre - Russia / 2015
45 MW Waste to Energy

1 x 15 MW Thermal Oil Heater
1 x 35 MW Hot Gas @ 350 C for MDF Dryer

Kronospan KM - Türkiye / 2016
50 MW Waste to Energy

1 x 24 MW Thermal Oil Heater
1 x 26 MW Hot Gas @350 C for MDF Dryer
1 x 12 TPH Indirect Steam Generator @ 14 bar

Yıldız Entegre MDF - Romania / 2017
70 MW Waste to Energy

1 x 35 MW Thermal Oil Heater
1 x 35 MW Hot Gas @ 350 C for MDF Dryer
2 x 19 TPH Indirect Steam Generator @ 14 bar

Kronospan SM - Belarus / 2018
60 MW Waste to Energy

1 x 42 MW Thermal Oil Heater
1 x 18 MW Hot Gas @ 300 C for MDF Dryer
1 x 30 TPH Indirect Steam Generator @ 16 bar
350.000 m3/h - ESP filter - 30 mg/m3

Starwood Hamzabey - Türkiye / 2018
9 MW Waste to Energy

7 MW Thermal Oil Heater
2 MW Hot Air Generation for Hall Heating
Cyclone Filters

REFERENCE PROJECTS FOR WASTE TO ENERGY PLANTS

Pinskdev Plywood - Belarus / 2020
2x27 MW Waste to Energy

2 x 21 MW Thermal Oil Heater - Wood Waste
2 x 21 TPH Indirect Steam Generator @ 8 bar
2 x 180.000 m³/h Bagfilters @20 mg/m³

Kronospan Volinsk - Ukraine / 2020
45 MW Waste to Energy

12 MW Thermal Oil Heater
33 MW Hot Gas @ 800C for OSB Dryer
Hot Gas Cyclone

Parfino Plywood 2 - Russia / 2020
11 MW Waste to Energy

8,25 MW Thermal Oil Heater
Multicyclone Filters

ITC Waste Process - Türkiye / 2020
2x18 MW Hazardous Waste to Energy

2x15 MW Thermal Oil Heater for ORC Turbine

Kastamonu Entegre - Türkiye / 2021
7 MW Waste to Energy

5 MW Thermal Oil Heater for ORC Turbine

Starwood Hamzabey 1 - Türkiye / 2021
70 MW Waste to Energy

35 MW Thermal Oil Heater
35 MW Hot Flue Gas @ 350 C for MDF Dryer
3 x 20 TPH Indirect Steam Generator @ 16 bar
1 x 16 MW Waste Heat St. Generator @ 16 bar
600.000 m³/h - ESP filter - 30 mg/m³

Krasnyi Yakor - Russia / 2022
11 MW Waste to Energy

8 MW Thermal Oil Heater
Multicyclone Filters

Starwood Hamzabey 2 - Türkiye / 2022
70 MW Waste to Energy

35 MW Thermal Oil Heater
35 MW Hot Flue Gas @ 350 C for MDF Dryer
2 x 20 TPH Indirect Steam Generator @ 16 bar
1 x 16 MW Waste Heat St. Generator @ 16 bar
600.000 m³/h - ESP filter - 30 mg/m³

Kronospan KM - Türkiye / 2025
68 MW Waste to Energy

1 x 46 MW Thermal Oil Heater
1 x 22 MW Hot Water for OSB Dryer
1 x 12 MW Hot Gas for MDF Dryer
375.000 m³/h @ ESP filter - 30 mg/m³
